

# Decra Qube

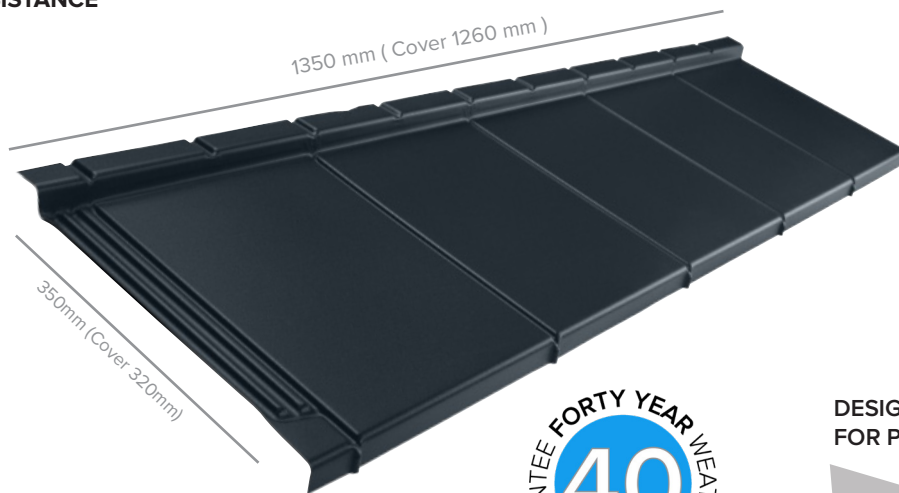

An exciting addition to the Metrotile range, the Decra Qube profile offers a sleek profile with clean lines and a beautiful matt finish.

Qube is a sleek and clean rectangular design offering simplicity & beauty. This distinctive, well-defined profile will add considerable character for the most contemporary of designs while offering security to your roof that 'traditional' materials simply can't. Concerned about the sound generated by rainfall and other weather? Don't be - the Qube roof tile has special sound patches attached to its lower side for sound insulation.

Installable crossways or in a straight line, the Qube's elegant lines offer a stunning finish to any pitched rooftop and is available in a selection of matt finishes, with stone coated options to follow - please contact us for more information.
